Professional Summary

B.Tech Computer Science and Design graduate (CGPA: 7.19) with a strong foundation in Core Java, SQL, HTML, CSS, JavaScript, React, Git, Github, Python, PostgreSQL, and Firebase. Developed full-stack academic and personal projects involving authentication, CRUD operations, database integration, and responsive web applications. Passionate about building scalable software solutions and seeking an entry-level Software Developer role.

Technical Skills

- **Programming Languages:** Java, Python
- **Frontend:** HTML5, CSS3, JavaScript
- **Database:** SQL, PostgreSQL, Firebase Firestore
- **Core Concepts:** Core Java, Object-Oriented Programming (OOP), CRUD Operations, REST APIs, SDLC
- **Tools:** Git, GitHub, Eclipse IDE, VS Code, Postman, Firebase

Projects

SmartAlloc – Budget Planner

HTML, CSS, JavaScript, PostgreSQL

- Developed a personal finance application to manage income, expenses, and monthly budgets using HTML, CSS, JavaScript, and PostgreSQL.
- Implemented CRUD operations for financial records with PostgreSQL to provide persistent data storage and efficient data management.
- Designed responsive user interfaces to improve usability across desktop and mobile devices.
- **GitHub:** github.com/AlanBose-dev
- **Live Demo:** smartalloc.vercel.app

CampusResolve – College Complaint Management System

HTML, CSS, JavaScript, Firebase

- Designed and developed a role-based complaint management system enabling students to register, track, and manage complaints through dedicated student and administrator dashboards.
- Integrated Firebase Authentication and Firestore to implement secure login, role-based access control, and real-time database synchronization.
- Built responsive user interfaces using HTML, CSS, and JavaScript for improved usability across multiple devices.
- **GitHub:** github.com/AlanBose-dev
- **Live Demo:** alanbose-dev.github.io/campusresolve

NOVA – Digital Voting Platform

HTML, CSS, JavaScript, Firebase

- Built a web-based digital voting platform supporting voter authentication, candidate management, and election administration.
- Integrated Firebase Authentication and Firestore to securely manage election data and provide real-time voting updates.
- Designed responsive interfaces to deliver an intuitive voting workflow and improve accessibility for users.
- **GitHub:** github.com/Team-iElect
- **Live Demo:** team-ielect.github.io/nova

Education

Bachelor of Technology in Computer Science and Design

2022 – 2026

Vimal Jyothi Engineering College, Kannur

CGPA: 7.19
